## NEW ENGLAND CITIES TO HAVE WAR ORDERS CUT

Because of Congested Housing and Transportation Facilities.

Washington, Sept. 4.—Sixty cities of the east, south, middle west and Pacific coast are to have their industrial war orders cut down because of congested housing and transportation facilities. It was announced yesterday that the general staff had advised all supply bureaus of the war department to cut that placing of new orders in the cities named are reduced to a minimum.

In spite of federal appropriations to relieve the housing shortage, the bureau was informed, in some places workers are forced to use beds in three shifts a day.  
The cities named include: Aberdeen, Md.; Bath, Me.; Bayonne, N. J.; Bethlehem, Pa.; Bridgeport, Conn.; Butler, Pa.; Camden, N. J.; Chester, Pa.; Derby, Conn.; Easton, Pa.; Edinboro, Pa.; Elizabeth, N. J.; Erie, Pa.; Jersey City, N. J.; Lowell, Mass.; Milton, Pa.; Newark, N. J.; New Brunswick, N. J.; New Castle, Del.; New London, Conn.; Newport, R. I.; Perth Amboy, N. J.; South Amherst, N. J.; Philadelphia, Pa.; Phillipsburg, N. J.; Portsmouth, N. H.; Quincy, Mass.; Waterbury, Conn.; and Watertown, Mass.

**ROUNDING UP SLACKERS.**  
New York Draft Arrests Yesterday Numbered 4,000.  
New York, Sept. 4.—The sifting of thousands of young men being gathered here yesterday in a great corral of suspected army slackers had resulted yesterday afternoon in the discovery of at least two hundred who had evaded service. Without ceremony they were immediately shipped off to training camps. So far 4,000 young men have been picked up in the metropolitan district by government agents and over a thousand in Newark and other nearby New Jersey cities.

**DOCTORS GIVE REASONS FOR SPRING FEVER**  
Explain Its Real Meaning  
"The name spring fever," said a well-known physician in conversation the other day, "is a misnomer, and is largely a figure of speech used to describe the peculiar lassitude that so many people complain of at the expiration of their winter months. It is a physiological condition and is not a fever at all, but a general letting down of nature's forces, particularly the nervous centers, due to the deficiency of iron and phosphorus, both of which are absolutely necessary for the maintenance of bodily vigor."  
"Of course," he continued, "the excessive meat eating, the loss of green vegetables and of oxygen, of which there is so little in the average heated house, all play their part. The result is that nature is calling for an increased output of the vital forces during the winter months, and this demand means more phosphorus and iron. For it is these two potent remedies, combined, which are nature's armament in her defensive warfare. With the advent of warm weather, the pores act more freely and the heart slows up and that peculiar lassitude which we call spring fever is manifested."  
"And the remedy, doctor?" an interested listener asked. "Why, my dear sir, the remedy for these starved nerve and blood centers is Phosphated Iron. But there is no reason why we should ever reach this point, if we would, from time to time take that well known remedy, Phosphated Iron, and so maintain the physiological balance, as shown by our color, our sense of well being, push and activity, all of which are necessary to make life worth while."  
And the doctor was right.  
Special Notice.—To insure doctors and their patients receiving the genuine Phosphated Iron, we have put in capsules only. Do not allow dealers to substitute tablets or pills. Insist on capsules.

## ORANGE COUNTY FARM BUREAU

Notes for Week Ending Aug. 31.

At the meeting of the board of directors of the farm bureau held at the farm bureau office Monday, C. L. Haywood, Williamstown was chosen president, Mrs. G. C. Tuthery of Chelsea vice-president, G. C. Tuthery secretary-treasurer, and J. P. Davis was to have charge of the Orange County Farm Notes.

Chelsea West Hill Farmers' club celebrated with a picnic in Frank Libby's grove Tuesday. A day of relaxation following the strenuous harvest season is not a day lost and other clubs may well pattern after the example set by three of the clubs in the last three weeks.

The county agent spoke to the Pomona grange meeting at Brookfield on Wednesday on the desire of the farm bureau to have the local granges feel a part in the farm bureau work as the local organization through which the farm bureau can accomplish its work. Two granges have already signified an interest and desire to co-operate the work of the two institutions in their community.

Those present at North Randolph on Wednesday evening heard some very helpful suggestions regarding the starting and managing of a co-operative creamery from a man who has had experience in both. Mr. Edwards, manager of the Richmond creamery, believes that the number and importance of these farmers' co-operative plants is going to mean much to the future of Vermont's dairy industry.

Over 75 farmers from Orange county were spectators at the tractor demonstration at North Haven Saturday. Five tractors were represented, all differing in construction and handling. The interest shown by the large crowd in the work of these mechanical horses means that their number will increase on the farms where their work is practicable. The county agent would like to keep in touch with those who are contemplating purchasing as there are many sides of the question to consider.

The directors of the farm bureau voted to continue the publication of the "Orange County Farm Notes" this coming year and make it monthly instead of quarterly. The first number of the second year will be out early in September. Any who wish to advertise in this issue are asked to send in the material before Sept. 10.

The war department has asked all club workers to co-operate in their campaign in collecting peach, plum and cherry pits and all kinds of nut shells for use in making carbon for gas masks. The war department will collect from central points and the farm bureau office is asked to act as such. Here is a chance for the boys and girls of this county to do a patriotic service for their government. The county agent will be glad to assist in getting the supplies to a central point if you will notify him what you have.

The farm bureau would like all farmers having figures on the cost of milk production to go to the meeting at Wells River or Woodsville Sept. 11 prepared to give those figures at the hearing which the milk commission will hold at that time. The prices to be paid producers in the next three months are largely dependent on the co-operation given in this work by the dairymen themselves. Cost account sheets can be obtained from the county agent if you do not already have a copy.

The county agent and Miss Dutton expect to be present at meetings at West Fairlee Sept. 10, West Bradford Sept. 12 and Wrights mountain Sept. 13. At the last named meeting the organization of a farmers' club in that section will be discussed.

**Conservation of Credit.**  
Not only should the goods and labor of the nation be conserved for the prosecution of the war; the credit of the nation must be conserved for the same purpose.  
This is being impressed upon the people, too—the borrowers from banks.  
All of the banks of the country are urged by the federal reserve board to curtail their loans. They are urged to curtail only where the borrower is going to use it in some way that will aid in or contribute to winning the war.  
This policy is not aimed at hampering legitimate business. It aims to help win the war, which is the best thing possible for business. It simply means that money wanted for nonessential purposes should be refused. Let the nonessentials wait until the war is finished. The government needs the money to carry on the war. The farmers, the men and the industries engaged in war work or engaged in producing things needed for the efficiency both of our soldiers and of our home people, need the credit to carry on their enterprises.  
Merchants should not borrow money to stock up on luxuries or things that the people should not buy at this time. No one should borrow money now to spend needlessly or extravagantly. Unnecessary building, unneeded articles, unessential enterprises should all await the ending of the war.  
The federal reserve board points out that in the interest of successful government financing it would be much better for the banks to hold credit within reasonable bounds by intelligent co-operation rather than to discourage borrowing by charging high interest rates. The people should co-operate with the government and the banks in this policy of conserving credit and curtailing borrowing except where the money, directly or indirectly, helps win the war, helps our soldiers who are risking their lives for our country.

**BARRE GOLF TOURNAMENT.**  
H. Brown vs. Robertson and Walsh vs. J. Freeland for the Semi-Finals.  
The championship of the Barre Golf club was started Saturday morning. The qualifying round was played in the forenoon and the first round match play in the afternoon. The 16 best scores qualified for championship. E. J. Walsh won the low gross prize with a very low gross score of 69, while D. J. McMillan won the annual handicap prize by having a low net score of 67. The draws and results of the first round for championship were as follows. This was played Saturday afternoon.  
**First Round for Championship.**  
J. Murray won from McMillan, they having to go an extra hole; H. Brown won from A. Milne, 1 up; J. Robertson won from F. Fraser, 2 up; R. Phillips won from A. Brew, they having to go an extra hole; J. Freeland won from William Irie, 4 up; G. Marston won from A. W. Stewart, 2 up; E. Walsh won from D. Stuart, 5 up; Hutchinson won from Bottiggi, 6 up.  
**Second Round for Championship, Played Monday Forenoon.**  
H. Brown won from Murray, 2 up; Robertson won from Phillips, by default; J. Freeland won from Marston, 6 up; Walsh won from Hutchinson, 6 up.  
**Semi-Final for Championship.**  
H. Brown won from Robertson, 2 up; Walsh won from J. Freeland, 2 up.  
**Second Round (Second Eight); Losing Eight of First Sixteen.**  
Milne won from McMillan at twenty-second hole; Fraser won from Brew; A. Freeland won from Pifer; D. Stuart wins from Bottiggi.  
**Semi-Final, Second Eight.**  
J. Fraser wins from A. Milne, A. Freeland wins from D. Stuart.  
Final are to be played on Saturday afternoon—For championship, 36-hole match; for second eight, 18-hole match.

**Government Assumes Expenses of College Students.**  
Middlebury college has received word from the war department that the new regulations of the students' army training corps will provide tuition, room rent, and board for boys over sixteen, in addition to \$30 per month soldiers' pay. The war department will contract with the college to pay all college expenses, including board, room rent, and tuition for enlisted students. Uniforms are also furnished free. It is expected that these inducements will fill every space in the college halls. The students will be in uniform all the time and under military discipline.

## LIVESTOCK PRICES BREAK.

Heavy Receipts at Brighton Market—Fancy Beef Cattle 20 Lower.

Brighton, Mass., Sept. 4.—Heavy receipts of livestock and a dull and draggy dressed beef market helped to break prices badly at the Brighton stock yards yesterday morning, the only exception to the downward tendency being hogs, which were again pushed to the top level of the war.

Fancy beef cattle were said to be about 20 lower than a week ago, and buyers were having their own way in the market. Top prices were around 14@15c, though very few brought these top figures. Average tops sold at 10@11c, good cattle at 9@10c and light cattle at 7@8c.

About 11c appears to have been the top yesterday for fancy beef cows and heifers, though some were holding for more. Canner cows were relatively stronger than the better grades, selling at 8@9c, with ordinary cows at 6@6 1/2c, good cows at 7@8c, and average tops at 8@10c. Sellers found it difficult to get over 8c for bulls above the average, though an occasional fancy bull was held at 9@10c.

Calves were about a cent lower all along the line, and nothing was quotable at over 10c for small lots of fancy calves. Bunch lots sold at 15@15 1/2c, fair lots at 12@13c, and grassers and drinkers at 8@9c.

Sheep and lambs were in fairly plentiful supply for this market, sales being made yesterday at 18@19c for lambs and 8@10c for sheep.  
Hogs were pushed up again yesterday, and both live and dressed stock is quoted again on the top level of the war. Best stock sold at Brighton yesterday morning, live weight, at 20 1/2@20 3/4c, with rough lots at 19@20c.

Prices of dressed hogs again have touched the top level of the war, the packers now quoting 25@25 1/2c, against 24@24 1/2c a week ago.  
The market for milk cows is rather easier, with the demand not as active as in recent weeks. Prices for ordinary milkers are affected by the break in slaughter cows, and now cannot be quoted at over \$40@\$50 each, and from this up to \$150 and better. Several fancy cows have been sold during the past week at \$175, but these were exceptional.

**Recipe for the week: Plum Conserve.**  
1 pound or 2 dozen plums, 1-3 pound or 1 cup raisins, 1/2 cup cold water, 1/3 pound or 1/2 cup nut meats, 2 oranges, 1-3 pound of dark corn syrup. Wash the plums, stone and cut into pieces; add seeded raisins and chopped orange pulp and peel shredded very finely (use scissors), corn syrup and water; simmer until the mass has the consistency of jam made, or about 1 1/2 hours.

**Government Assumes Expenses of College Students.**  
Middlebury college has received word from the war department that the new regulations of the students' army training corps will provide tuition, room rent, and board for boys over sixteen, in addition to \$30 per month soldiers' pay. The war department will contract with the college to pay all college expenses, including board, room rent, and tuition for enlisted students. Uniforms are also furnished free. It is expected that these inducements will fill every space in the college halls. The students will be in uniform all the time and under military discipline.

**Conservation of Credit.**  
Not only should the goods and labor of the nation be conserved for the prosecution of the war; the credit of the nation must be conserved for the same purpose.  
This is being impressed upon the people, too—the borrowers from banks.  
All of the banks of the country are urged by the federal reserve board to curtail their loans. They are urged to curtail only where the borrower is going to use it in some way that will aid in or contribute to winning the war.  
This policy is not aimed at hampering legitimate business. It aims to help win the war, which is the best thing possible for business. It simply means that money wanted for nonessential purposes should be refused. Let the nonessentials wait until the war is finished. The government needs the money to carry on the war. The farmers, the men and the industries engaged in war work or engaged in producing things needed for the efficiency both of our soldiers and of our home people, need the credit to carry on their enterprises.  
Merchants should not borrow money to stock up on luxuries or things that the people should not buy at this time. No one should borrow money now to spend needlessly or extravagantly. Unnecessary building, unneeded articles, unessential enterprises should all await the ending of the war.  
The federal reserve board points out that in the interest of successful government financing it would be much better for the banks to hold credit within reasonable bounds by intelligent co-operation rather than to discourage borrowing by charging high interest rates. The people should co-operate with the government and the banks in this policy of conserving credit and curtailing borrowing except where the money, directly or indirectly, helps win the war, helps our soldiers who are risking their lives for our country.
